in: [Legendary Items](#), [Armor](#), [Armor Sets](#), and [May 2 Edit Comments Share Young BloodGain +70 Walk Speed when you are over 50% health. +100 Walk Speed Cap Da Yes 240x Young Dragon Fragment](#) Young Dragon Armor is a legendary armor set that focuses on massive lymed speed growth (and currently gives it the largest amount of speed possible in the game from armor). It is one of eight sets of dragon armor and is considered to be extremely useful because it allows players to quickly kill fanatics for invoking the eyes or level 50 Endermen in the hope of getting a legendary Enderman pet. The complete set can be made from 240 fragments of young dragons. When wearing the full set, the wearer will earn +150 Total Speed when the player is over 50% of their maximum health and +100 speed cap. It provides decent health and, due to its excellent speed, is great for grinding Zeloti in the End. If the player has a set of armor with a big Mana boost, like Crystal Armor and Rogue Sword, they can wear Crystal Armor at maximum light level, switch to Young Dragon Armor, and then use Rogue Sword to accelerate. Thanks to the Young Dragon Armor set bonus, allowing its wearer to increase speed by 100%, the player will be at a speed level around the maximum. This set of armor prioritizes speed over all other statistics. Pure and Fierce are good reforges for this set, providing a similar state boost compared to superior Dragon Armor. Thanks to the Dungeon Element version of it having a visibly lower level Catacomb requirement than other Dragon Arms, a lot of high-level Dungeon players upgrade their young dragon armor to 5 stars and reforge it to Necrotic. Because Young Dragon Armor is

legendary and generally has very good stats compared to most dungeon elements currently in the game, this combined with a Spirit Sceptre will destroy all the current mobs that you can find in the Catacombs. Trivia[edit | edit source] This armor set is one of three sets of colored dragon armor similar to the main state of armor. Both Young Dragon Armor and Speed State are white. The other two Dragon Armor sets with coloring similar to their stats are Wise Dragon Armor and Strong Dragon Armor. Bugs[edit | edit source] When joining a lobby, there is a small chance that Full Set Bonus will not activate until the player reapplies This bug seems most prominent in private islands and hub islands. There is also a very small chance if Full Set Bonus is enabled, but actually only offers basic +80 Speed, even after reapplying armor. This can cause the player to go to below 100 speeds armor is removed, the lowest speed achievable being 30 without additional buffs or debuffs. This armor also increases the damage to the appearance of the dragon's ability, Dragon Rage. The entire set can be created using 240 superior dragon fragments that can be obtained by defeating the Superior Dragons and The Superior Lost Adventurers. Superior Dragon Armor is one of the 8 different Dragon Armor sets and is generally considered the best and most expensive. A fragment of the superior dragon will cost 131,105 coins from the Bazaar, putting the total cost of armor set at 31,465,032 coins, if one were to buy only fragments. Superior Dragon Armor is considered to be one of the most powerful sets of armor. It boasts the greatest health and defense of all dragon armor and exceeds Strong Dragon Armor in damage if the player has a large amount of power and Crit damage being increased by bonus set momentum at Stats. It is also the only armor set to grant additional Magic Find and Pet Luck because of the bonus set 5% increase to all statistics, making arguably the best armor for hunting. For these reasons, the set is highly desired by players at the end of the game. However, as the dungeons update, Shadow Assassin Armor beats Superior Dragon Armor in damage and provides similar effective health, and Necron's Armor, despite being more expensive, is much better than Superior Dragon Armor in both damage and effective health. Thus, Superior Dragon Armor is mostly used by people who do a lot of hunting, or people who have not reached the dungeons yet. 5 star Superior Dragon Armor is a very good set for dungeons, primarily Mages thanks to buffing the beam mage of a lot, as well as providing some information. Since the armor set has very minor status buffs, without the bonus set to be taken into account, the switching should be made only a the player can afford the full set. Trivia When Reorged to Superior, it becomes Highly Superior This armor probably relies on the Superior Dragon from the Anime SD Gundam Gaiden Eyebrows on this set are different from the other sets, giving it a more aggressive facial expression. It costs 6,990 Dragon Essence at 5-Star Superior Armor. When used in combination with a Blaze Pet, Frozen Blaze Armor exceeds Superior Dragon Armor in effective health and damage. However, do not grant any Magic Find and players are stuck in the use of Pet Blaze. At the same time, Superior Dragon Armor can be combined with pets, such as Baby Yeti or Ender Dragon Pet for greater effective health and even damage. Players should carefully assess which set is the right choice for them. Superior Dragon Helmet is the first (and only) item to have 2 cosmetic skins - Shimmer and Baby. Combined with a level 100 Ender Dragon Pet, renowned reforge, and Legion V on all 4 tracks with 20 players nearby, you can get a state boost of 57.54% total.
