In front of you a shiny stretch of rain-soaked sidewalk. Are you drifting, designing or smashing your way to victory? Whatever your style, this iconic street racer delivers an incredibly fun arcade action. The impressive graphics make every Subaru, Porsche and McLaren in view, and the wide line-up of events gives you many ways to show your opponents your rear lights. Individual races are pleasantly short, and we've slid into the burning by them to unlock the most exotic cars and discover more challenges. These events for cars are amazing its just the difficulty I've played this game for about a year, and the events get almost impossible to go after you get to chapter 5 you have to do 17 races that can't seem bad, but because you have to upgrade in the middle of race 8 instead of 9 and you only have 5 tickets that is harder because it takes about an hour for 1 ticket! So 5 hours for a full contribution and 17 tickets and you have 24 hours left that is 17 hours, and if you mess it up almost a day I think you should cut the racing a little more short and make the game playable for events because it now takes a ridiculous amount of time to play and get a car without wasting money. You literally have to waste real cash on the game I understand that y'all got lives and you gotta get money but you gotta worry about the game I also ask you to raise the gold amount for the in in shopping for gold because it's a way to make a small \$100 and you can't even buy a hyper car which is ridiculous I'd be on the black market in the game and you can't even buy that in \$100 in addition to this great game and please keep up with updates This game has driving mechanics that makes you feel like you're actually doing something. This game is fun and I recommend everyone who stumbles across it to try it out. There are no pop-up ads you want to watch unless you want to boost. However, this game is a big pay to win. To unlock better cars you need to get a certain number of plans for this car. The only way to get plans is with chests that you earn overtime (or you can just buy them in bulk), winning races (fuel is required to race and is earned for a long time or you can buy more), and just buying a car outright. You can only get high-tier cars from crates if you're at a high level (which makes sense), but the aforementioned fuel only allows you to race 5-10 times every 30 minutes, which limits your ability to advance. You also need to get parts to upgrade your car (which you can win with races or buy in-game and real money) but are too expensive with in-game money (or at least part of it I'm in. It's very frustrating for people who want to play this game a lot, but it's a lot of fun. I ask you to try the game yourself to see if you agree with me, and if I put a bad taste in the mouth, from which I talked about the disadvantages, I encourage you to download this game and play it for 10 minutes and see if you think it is worth it.
